

December 03, 2025: Nobody Could See It Because It is SO perverse.

I am recording the facts that compose an ongoing historical phenomenon that there are indeed members of the United States military that are sitting around spying on people inside of their homes -

FOR THE PURPOSE OF driving machine-created messages of their 'power' and satanic 'intentions'.

This is what composes the 'secret society' that walks in silence using only 'sign language' to express their thoughts and intentions - (if your daddy or granddaddy is / was a Freemason, this is what they are doing in their secret time when they aren't willingly enslaving themselves to the satanic grasp of group-sex prostitution)

Their mindset is so perverse that it cannot be spoken out loud.

I am providing the world a historical record to understand that the USA military has succumbed to Nazi-ism and must not be further funded by the American public and taxpayer's dollars.

Just to plainly mark the lowest point that I have personally seen:

A 'secret' group of people (the leaders and founding fathers of America) willingly enslave themselves to evil while secretly hunting and sacrificing the good people of the world so that their secret group can monopolize the world's resources and get everything that they want in their sick disgusting time on earth.

That is the Trump and Musk secret formula to success. Enjoy!
